Multi-Skilled Operator III

Responsible for well operations, gas lifted wells, ESP's, three phase separation, gas compression, control board operation, pipeline operation, minor maintenance of valve, pumps and rotating equipment and assisting the other operators and craft personnel in their duties. Prepares for and performs maintenance, taking readings, doing rounds, issuing work permits, following procedures, initiating work requests, writing procedures, and interfacing with support groups. Proactively monitors well and equipment performance, take appropriate action to maximize production. Works with support groups to optimize chemical pump rates based on production data (corrosion, paraffin, soap injection, etc.). Interfaces with Engineering for data gathering requests. Track test compression data. Conducts fluid levels with echo meter.

Typically requires 5-7 years of experience. Provides more technical/functional support than administrative support. Demonstrates a thorough working knowledge of technology, applications, terminology, and procedures required of job function. Performs varied and more complex tasks. Makes decisions within broad parameters.

Production Operations Coordinator

The Production Operations Coordinator (POP Lead) is responsible to coordinate field activities with all groups associated with completing and putting on production of wells progressing through the drilling and wellwork programs at the Kuparuk Field. This position works closely with Wellsite Operations, Drilling, Wells, Projects, well service contractors, Planning, and commissioning teams to facilitate safe and timely production operations upon completion of well workover or drilling activities. The POP Lead must be familiar with Kuparuk drilling, wellwork, and operations practices, and will work with the associated departments to identify and resolve issues, bottlenecks, and conflicts that arise as wells progress through the drilling/completion/project/start up phases.

Petrotechnical Resources of Alaska, LLC (PRA) is an Equal Opportunity Employer
