

Al Heinrich has worked in petroleum exploration since 1966. His first assignment was with Amoco, based in New Orleans, where he worked the offshore Gulf of Mexico, a province he returned to briefly with Enserch Exploration in 1988. During the intervening years, he worked for several other companies and explored in most basins of the U.S. Rocky Mountains, plus the Rocky Mountain Thrust Belt, Nevada and Arctic Alaska. In addition to pure geological exploration, he spent several pioneering years in geologic computing, helping develop and implement exploration database and mapping applications. He continues to develop and utilize these skills. Beginning in 1988, he began developing prospects and consulting, d.b.a. Petrolific Exploration. Consulting projects have ranged from Prospect development in Frontier areas, to coal bed methane, and examination of horizontal drilling and other new E&P technologies. He has examined the U. S. Pacific Northwest, Crazy Mountains Basin, Montana, Northern Caribbean and Haiti, Polish Baltic, and other areas for his own Frontier area prospects. He was recently involved in a data base project as part of the National Coal Resource Assessment, and he wrote several summary reports on basin centered gas potential in four frontier area Western U.S. and Alaska basins for the U. S. Geological Survey. In addition to exploration endeavors, he continues to informally represent a very successful PC based Log Analysis program in the Denver area. Al is a team player, who has several times put together and managed successful exploration teams. He has an easy ability to work with and motivate people, and to insure the successful completion of projects of all sizes

PROFESSIONAL AFFILIATIONS AND ACTIVITIES

American Association of Petroleum Geologists Certified Petroleum Geologist, # 5153
Society of Independent Professional Earth Scientists, Certified Geologist # 2224
Geological Soc. Of America
Rocky Mountain Assn. Geologists
Denver Geophysical Society
Nat. Gas / Coal Bed Methane Forum
GeollyBoys Study Group
World Future Society, Prof. Member
Soc. Petroleum Engineers
Denver International Petroleum Society
(All Committee and Elective Positions Omitted)

PROFESSIONAL EXPERIENCE

1989-present PETROLIFIC EXPLORATION - Denver CO
KRH SYSTEMS CONSULTING - Denver CO Principal, Geologic and Systems Consulting

1988 ENSERCH EXPLORATION - Dallas Tx;
District Geologist - Offshore District

1984-1988 ENSERCH ENERGY / EXPLORATION - Denver CO: North. Rocky Mtn. Dstr - District Geologist

1983-1984 PETROLIFIC EXPLORATION - Denver CO. Principal / Consult Geol

1981-1982 DOW CHEMICAL OIL AND GAS DIV. - Denver; Rocky Mtn Dstr. Exploration Manager

1979-1980 DOW CHEMICAL OIL AND GAS DIV. - Denver; Rocky Mtn Dstr. Regional Geologist

1977-1979 TERRA RESOURCES Southern Rocky Mtn Dstr - Denver CO. Area Geologist

1974-1977 AMOCO PRODUCTION CO. - Denver CO. Alaska District. Senior Geologist

1968-1974 AMOCO PRODUCTION CO. - Denver CO. Geologist and Exploration Computer Coordinator

1966-1968 AMOCO PRODUCTION CO. - New Orleans LA Offshore District. Geologist
