INTRODUCTION

Petrotechnical Resources of Alaska, LLC (PRA) provides professional personnel to the oil and gas industry. Our multidisciplinary staff of qualified and experienced professionals possess a diverse array of technical capabilities to provide our clients with a full spectrum of geoscience and engineering consulting services.

Founded by five petrotechnical consultants who have worked in various capacities within international oil and gas companies over the past thirty years, we have now grown into Alaska's premier oil and gas professional consulting group. We offer petrotechnical services in geophysics, geology, engineering, HSE, and management. Our staff has a wide range of technical experience in Alaska. Professionals on our staff can be contracted out as individuals for specific, well-defined jobs, or as members of a team tailored to manage larger projects.

MISSION STATEMENT

Petrotechnical Resources of Alaska ("PRA") is committed to providing high quality, professional geological, geophysical, and engineering consultants to the Alaskan oil and gas community. Our employees have extensive Alaskan experience on the North Slope, the interior basins, and Cook Inlet. We provide our clients with experienced individuals to fill specific needs or with integrated teams to manage exploration and development projects.
