

CAREER SUMMARY:

Mark has a B.S. degree in Geology from Michigan State University. He has also completed several courses in Log Interpretation, courses in hazardous waste and corrective action training.

Mark's experience includes over twenty years of experience applying geological, geophysical, and petrophysical concepts to petroleum exploration, including wellsite consulting, and prospect generation. Extensive experience in the full range of wellsite activity including: geo-steering of horizontal, multilateral, and deviated wells, drill stem testing, wire line logging, coring activities, evaluation of all wellsite activities, and successfully communicating results and strategies to clients.

Mark's Alaska experience includes Alpine, Borealis, Kuparuk (West Sak and Kuparuk targets), Milne Point (Kuparuk and Schrader Bluff targets), Niakuk, and Prudhoe Bay (EOA & WOA). Areas outside Alaska include extensive experience in basins throughout the Rocky Mountains, the Mid-Continent, the Michigan Basin, Indiana, and Illinois.
